12"x 36" fluorescent yellow reflective sheeting with 10"x 24 white insert. White post and panel.

Sheeting Insert R1-6 or R1-6a

White Post and Panel

Overall height of unit is 44"

This product should be used with the Surface Mount Quick Release or Lightweight Portable Base (P)
****Temporary Use Only****
For permanent applications use the IRS® In-Street Pedestrian Sign

SPECIFICATIONS

- Post and panels are constructed of flexible plastic that is resistant to ultraviolet light, ozone, and hydrocarbons.
- Unit has a reactive spring assembly that allows the sign to give and rebound upon vehicle impact, greatly reducing sign damage. Includes anti-twist feature.
- Sign weighs just 8 pounds, 15% less than IRS®'s standard sign.
- Portable base weighs just 20 pounds, 45% less than IRS®'s standard base.
- Protective transport bag is included.

RECOMMENDED USES

- Eligible for "Safe Routes to School" funding and Federal Government MAP-21.
- Where weight and transportability are an issue
- Use for delineating crosswalks to reduce the risk of injury, death, and property damage.
- Designed for temporary, daily use in low speed applications; deployable and removal at manned locations.
- Do not use at signalized locations.
- Take care to avoid creating a trip hazard when using any sign in a crosswalk. Ensure that sign bases are outside the crosswalk area.
