

Tired of resetting your jobs?

Save money using the IRS™ line of work zone products

Impact Recovery Systems manufactures the most cost-effective flexible traffic control products on the market today. Our products combine high impact plastics and energy absorbing mechanics, resulting in the industry's first truly flexible work zone product.

- Low Life Cycle Costs
- Fewer Accidents
- Reduced Liability
- Improved Safety for Workers and Motorists
- Less Debris in Roadway
- Uninterrupted Work Zone Channelization

NCHRP 350 Approved Crashworthy

The heart of the system is a unique reactive spring with the strength to support not only a flexible post, but an information panel as well. This reactive unit gives upon impact and is designed to reorient the panel towards traffic.

Safer Tomorrow”*

## Minimizes Labor and Transportation Costs

Portable base with optional Quick-Release 103-QR

To unlock assembly simply pull keeper pin and rotate 90°

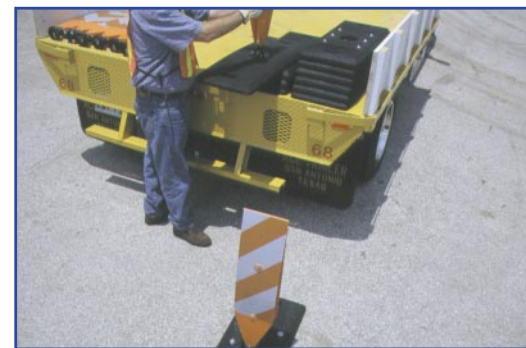

Lift assembly to remove from base

Low profile portable base remains in place

Molded-in carrying handle allows easy placement of portable base.

Portable base with Quick-Release is easily assembled and transported to job site.

The optional Quick-Release System utilizes a pull keeper pin as outlined above and is designed for applications where changeable and/or movable work zone products are required. The standard bases require four (4) socket cap screws for installation of the post to the base.

Tubular Markers

Opposing Traffic Lane Dividers

Vertical Panels

Median Chevrons

5 Ft. Chevrons
