TRAFFIC**
REBOUNDED TRAFFIC SAFETY DEVICES

REACTIVE SPRING TECHNOLOGY

INTERNAL SPRING ASSEMBLY

Built into every Impact Traffic sign post is our patented, anti-twist reactive spring assembly. This unique compression spring is designed to allow the sign post to withstand low speed bumper hits and return to its original position without damaging the sign or vehicle.

IMPACTABLE SIGN POST

Ideal for high traffic parking lot and parking garage locations. This highly- durable sign post is designed to withstand low speed bumper hits and return to its original position, without damaging the sign or the vehicle.

PRODUCT FEATURES

- Utilizes Our Reactive Spring Unit to withstand bumper hits and return to its original position.
- Durable HDPE plastic is resistant to UV light, ozone and hydrocarbons
- Includes black plastic cap
- Available in various heights up to 60"
- Easy to install, instantly operational
- Available with or without sign holes
- Supports single plastic sign panel up to 18" x 24"

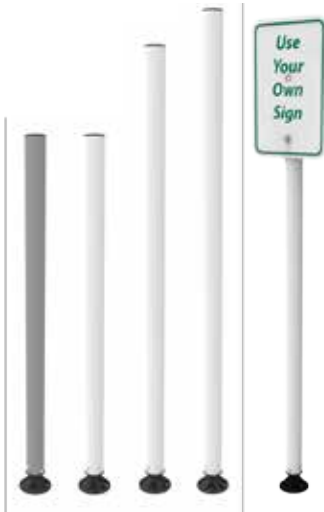

FLEXIBLE SIGN POST

PRODUCT SPECIFICATIONS

FLEXIBLE HDPE PLASTIC SIGN POST

This highly durable, high-density polyethylene plastic that is resistant to ultraviolet, ozone, and hydrocarbons. It features our patented anti-twist reactive spring assembly designed to rebound the unit upright to its original position after impact. Our flexible sign post supports a single plastic sign up to 18" x 24". Aluminum or wooden substrates should not be used. *NOTE: An aluminum Sta-Rite upgrade to this product is available.*

Product Specifications			
Post Heights	48"	60"	66"
Post Material	High-density polyethylene plastic; black plastic cap		
Post Colors	White or gray colors available		
Sign Support	Supports a single plastic sign panel up to MAX 18" x 24"; Aluminum or wooden substrates should not be used		
Sign Holes	Two sign holes drilled 15" apart; available with or without sign holes and bolt/washer assembly		
Spring Type	Fixed, Quick Release or Drivable spring types available*		
Compatible Bases	One Base® Portable Quick Release base, Fixed Surface Mount base or Drivable base*		

*Base and base mounting hardware is sold separately. Post spring type must be specified at time of order.

Product Specifications		
Sign Overall Height	60"	66"
Sign Plate Message	Reserved Parking (standard) or Reserved Parking Van Accessible	
Post	White HDPE plastic sign post - 2.375" outer diameter	
Panel	White HDPE plastic panel - 12" x 18"	
Reflective Panel	12" x 18" white engineer grade; blue and green ink	
Spring Type	Fixed, Quick Release or Drivable spring types available*	
Compatible Bases	One Base® Portable Quick Release base, Fixed Surface Mount base or Drivable base*	

*Base and base mounting hardware is sold separately. Post spring type must be specified at time of order.
