

CERTIFICATE OF COMPLIANCE
MASH 2016 CRASHWORTHINESS

This letter, known as CoC-OP3, serves as a self-certifying certificate of crashworthiness for the OmegaPost High Speed Delineator product by Impact Recovery systems. OmegaPost is a 3" diameter soft plastic delineator made in heights up to 36" tall and used in channelizing traffic safety applications. It is affixed to the roadway with a 8" x 8" HDPE base that is approximately 1" tall. The entire system weighs less than 4 pounds.

OmegaPost is a "Category 1" small and light weight device with no attachments. Products such as these have been in common use for many years and are known to be crash worthy by testing of similar devices and years of demonstrable safe performance. OmegaPosts have been extensively tested internally as well as as in real world test installations for over one year without safety incident.

This document should not be reproduced except in full.

A handwritten signature in black ink, appearing to read "Kenneth A. Parrott". The signature is fluid and cursive, with the first and last names being more prominent.
