

**Engineered to Protect What Matters**

**Work Zone  
Safety Solutions**

## Work Zone Safety That Works

Every work zone deserves strong, reliable protection. Whether you're managing daily lane closures, long-term construction zones, or emergency repairs, Impact Recovery™ offers a full line of durable, impact-resistant traffic safety products designed to safeguard crews and guide drivers with confidence.

### Product Benefits:

- **Built to Withstand Impacts:** Our patented flexible base options and spring-mounted posts withstand impact and return to position—minimizing replacement and downtime.
- **Highly Visible, Day or Night:** Bright colors and reflective sheeting ensure visibility in all weather and lighting conditions.
- **Easy to Deploy & Maintain:** Lightweight, modular components make setup fast and simple, while rugged construction reduces ongoing maintenance.
- **Meets Industry Standards:** Products comply with MUTCD and NCHRP 350/MASH guidelines to help you meet safety regulations with confidence.

### Applications:

- Channelizers & Delineators for lane separation and driver guidance
- Work Zone Signs with reboundable bases for temporary messaging
- Delineator Posts to define perimeters or restricted areas
- Portable Sign Posts & Bases for easy setup and repositioning
- Permanent Markers & In-Pavement Devices for high-traffic zones

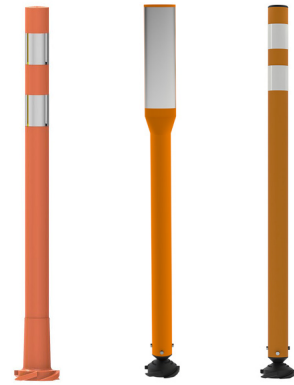

# Delineator Posts

PRODUCTS: MP2, TUFF POST, OMEGAPOST

---

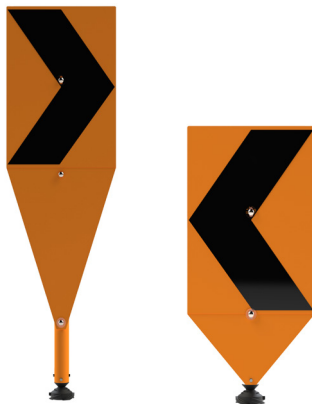

The Omega, MP2, and Tuff Post options provide customizable and durable delineation and channelization for nearly any need, in order to enhance a safe and uninterrupted traffic flow.

# Permanent Markers

PRODUCTS: CHEVRON PANELS

---

Chevron Panels and other permanent marking solutions provide long-lasting visibility and guidance in high-traffic and hazardous areas. Built for durability and clarity, these markers help improve driver awareness, reduce collisions, and support safe, consistent traffic flow in work zones and beyond.

# Work Zone Signs

PRODUCTS: IN-STREET FLAGGER WARNING SIGN, OPPOSING TRAFFIC LANE DIVIDER, VERTICAL PANELS

---

Our work zone signs deliver attention-grabbing visibility and flexible deployment. These impact-resistant solutions are designed to withstand harsh environments while ensuring clear communication and safe navigation for both drivers and work crews.

## Don't just mark your work zone. Protect it.

By choosing Impact Recovery for your work zone traffic safety needs, you're taking a proactive step toward protecting workers, drivers, and your community. Our solutions are built for the front lines—durable, visible, and proven to perform when it matters most.

- **Work Safety First:** From lane closures to long-term construction, our impact-resistant products help minimize risk, reduce accidents, and create a safer environment for every crew member.
- **Ready for the Toughest Jobs:** Built to endure heavy traffic, harsh weather, and repeated impacts, our work zone products offer long-lasting performance in the most demanding conditions.
- **Keep Traffic Flowing Smoothly:** High-visibility channelizers, signs, and delineators improve driver awareness and maintain clear paths—reducing confusion and helping prevent delays.
- **Build Public Confidence:** Visible safety measures show your commitment to responsible, professional operations—earning trust from both workers and the public.
