

PRODUCT BULLETIN

Date: December 15, 2025

Products Affected: SlowStop 5" Round Base Bollards

Change: Anchor Size Change

Impact Recovery Systems, Inc. (IRS) is pleased to announce an improvement to its line of 5" Rebounding Bollards to include  $\frac{3}{4}$ " x 5- $\frac{1}{2}$ " anchors on all -RB models previously only available on StoreFront models.

Although our ratings will not formally increase, this change will positively affect the stopping power of the bollard due to the larger anchor size and simplify installation across the product line.

The required hammer drill bit for installation is now  $\frac{3}{4}$ " and the impact socket is 1- $\frac{1}{8}$ ". Installation instructions have been updated to reflect this change.

For further information, please contact customer service at 1-800-736-4477 or visit our website at [www.impactrecovery.com](http://www.impactrecovery.com).
